CABLE WILL BE DELAYED

COMPANY ASKS NAVY DEPARTMENT TO MAKE NEW SURVEY. LINE CANNOT BE DELAYED.

The cable dispatches from Washington published this morning announce that the Commercial Cable Company had asked that the new survey of the proposed cable route from Honolulu to Guam and Manila via Midway Island be transferred to the Navy Department.

The cable dispatch failed to elucidate the nature of the request by the cable people or the reason for making such a request. The dispatch means that there will be a delay in the completion of the cable from Honolulu to Manila. How long this delay will be is a matter of conjecture.

The route is perfectly satisfactory for most of the way but the utmost uncertainty exists regarding the route in the vicinity of the island of Guam. In fact the surveys of the cable route in that locality were not satisfactory and until new surveys shall have been made the cable can not be laid. The cable company has evidently asked the Navy Department to survey a new route for them. Portions of the cable will no doubt be laid but there is little probability that the cable company will lay any cable in the vicinity of Guam.

The route from this place to Midway is all right. It will be clear sailing for the cable engineers. From Midway up to a point within about 600 miles north east of Guam, the route is also good but from that point on, the ocean's bottom is of such a nature that it would be folly apparently to attempt to lay the cable.

There are depths reaching over 5,000 fathoms while in close proximity there are peaks that are only 750 fathoms below the surface of the ocean. The cable has to lie on the bottom for it can not be suspended from one peak to another. It is necessary to find new routes to avoid these depths. The cable company has therefore appealed to the Navy Department to aid them in the matter.

It is very probable that there will be no delay in laying portions of the cable. The line can be laid from Manila to Guam and from Honolulu to Midway and from Midway to the neighborhood of the deep places. The cables would no doubt be buoyed in that locality until after the new route can be found. It will require a long time however. At the present time the company is entirely at sea and will probably be so until after the result of the surveys will have been learned.

THE WALDORF COMPANY.

The Waldorf Company should be seen at their best tonight in Burman's farcical comedy "The Lady of Ostend." It is said to be a rarely rollicking comedy the plot depending on the troubles of a man who is taken in a cinematograph picture while in a compromising position with a lady on the beach at Ostend. When the play begins we find the unfortunate victim innocently taking his wife and mother-in-law to a street show where the picture is being exhibited. Here the band begins. Miss Waldorf and her company created quite a flutter of excitement in the east with this play which seems to be something quite out of the way. There will no doubt be a large audience at the opera house tonight to enjoy a good laugh.

On Saturday the company will appear in the New York drama "A David Divorce" for which the box plan is now open. The curtain rises each evening at a quarter past eight by which time the audience are respectfully requested by the management to be in their seats.

TALKED ABOUT ENTOMOLOGIST

Quite a discussion ensued in the Senate this morning over an amendment offered by Senator Isenberg to defray the expenses of a second entomologist. The amendment was offered to the Appropriation Bill which was up for consideration on second reading. Senator Isenberg and Senator Baldwin spoke of the necessity of affording further protection to the small farmer and other interests by protecting them from the insect blights.

The opinion of some of the members seemed to be that the agriculture and kindred matters should be taken under control by the Federal Government. The various items for this portion of the bill were referred to a special committee consisting of Senators Isenberg, Baldwin and Kalaupokalani for a further report.

Another amendment to the bill knocked out the appropriation of \$1,200 for the salary of electrical inspector. Senator Baldwin for the Ways and Means Committee reported adversely on the bill to grant liquor licenses to grocery stores doing an annual business of \$100,000. The senator said it would be an injustice to the saloons that paid a \$1,000 yearly license and to the small grocery stores as well. The report will be considered with the bill.

It was also reported by this committee that the bill paying jurors 5 cents a mile be amended to 10 cents a mile.

Senator McCandless gave notice of intention of introducing a bill to knock out the law which awarded jurors \$1 for a verdict. He considered that this savored of bribery of jurors.

Senator Kaue presented a set of regulations signed at a mass meeting by Wailuku people asking for various changes in the county bill. The requests by this petition were that the schools be placed under control of the counties; that district magistrates be elected; that the offices of assessor and collector be consolidated; that prisoners sentenced to 10 years imprisonment be confined in county jails and prisoners sentenced to longer periods be confined in Oahu prison; that all officeholders except high school principals or government physicians, be required to reside in the territory three years before being eligible to office; that compensation for the board of supervisors be fixed by them; that the legislature fix the property tax; that the government physicians be under the control of the counties but be paid by the territory. This petition was referred to the County committee.

A petition signed by 145 people asking that the government acquire the springs at Pauoa was referred to a special committee together with the water works in that section.

A communication was received from Treasurer Kepoikai giving the Senate pursuant to its request, the amounts received by the Territory from all sources during the year just closed. The following were the amounts: Oahu, \$1,370,341.17; Hawaii, \$528,188; Maui, \$230,413; Kauai, \$214,990.75; Molokai, \$8,001.31, and Lanai, \$449.

A communication was also received from Secretary Carter announcing that the Governor had signed the special fire claims appropriation bill yesterday.
